Driving The Next Startup Wave

2018 | Entrepreneurship Forum and Startup Contest at the Upcoming IROS

The [IEEE/RSJ International Conference on Intelligent Robotics and Systems](#) is an annual flagship conference co-sponsored by the [IEEE Robotics and](#)

[Automation Society](#). Entrepreneurship and innovation is a core of the robotics domain, and this year again, an [Entrepreneurship Forum and Startup Contest \(EFSC 2018\)](#) will be organized at IROS to foster that entrepreneurial spirit and to provide a platform to encourage researchers and practitioners to transition ideas and prototypes to commercializable products.

What's New

[Would You Want Your Memories Uploaded to a Computer After You Die?](#)

The idea that some part of us will live on after we die is a comforting thought to many. One tech startup is suggesting the possibility of an afterlife—in a sense—by preserving people's brains and digitizing their memories, according to an article in MIT Technology Review.

[5 Things to Do When Launching an Engineering Startup](#)

How you can lessen the challenges and enjoy more of the reasons why you became an entrepreneur in the first place?

Thanks to an invitation from the [Singapore National Research Foundation](#), IEEE Entrepreneurship and the [IEEE Singapore](#) will participate in the [Slingshot@SWITCH](#) Global Technology Startup Competition by hosting an on-site [IEEE N3XT® Stars Program](#)! If you will be at [SWITCH](#), please let us know. SWITCH is a city-wide Industry event providing promising startups a platform to showcase their technology and business ideas, gain early exposure to investors, corporates, industry leaders, mentors, media, and tech-savvy early adopters through this startup competition.
